Education

University Of Benin

Studying Computer Science
2021 - Present

Interests

Soccer, tennis, reading, web
accessibility, video games,
proof reading, hacking.

Experience

Frontend Developer

Teknesis | Benin City | June 2023 - Present

As a Frontend Developer at Teknesis, I design and develop user-friendly interfaces for web applications using react.js, bootstrap, and Next.js. Collaborating closely with cross-functional teams, I ensure the seamless translation of design concepts into responsive and high-performance web pages. My role involves contributing to codebase maintenance, implementing best practices for scalability and accessibility, and staying updated with the latest frontend technologies.

Backend Developer

A2Z Online Mall | Benin City | April 2021 - March 2022

As a Backend Developer at A2Z Online Mall, I played a pivotal role in the development and maintenance of the online food delivery platform. Leveraging my expertise in backend technologies such as Node.js and MongoDB, My responsibilities included managing databases, and optimizing system performance for high traffic. I collaborated closely with frontend developers and stakeholders to deliver robust and feature-rich solutions that enhanced the user experience. Through my work at A2Z Online Mall, I gained valuable experience in agile development methodologies and problem-solving in a fast-paced environment.

Frontend Developer

Mountain Blue | Port Harcourt | October 2020 - January 2021

As a Frontend Developer at Mountain Blue, I spearheaded the creation of visually appealing and user-centric interfaces for various web applications. Using my proficiency in HTML, CSS, and JavaScript, I collaborated closely with design teams to bring mockups to life while ensuring responsiveness and accessibility across different devices. My responsibilities also included optimizing website performance and implementing UI/UX best practices. Mountain Blue, I thrived in a dynamic environment, continuously learning and adapting to emerging frontend technologies to deliver innovative solutions. iores voluptas blanditiis nesciunt enim, sequi quis tempore!
